

*Secure the Future of the Grid*

## CHIEF TECHNOLOGY OFFICER

Remote or Boston, MA / Full-Time

We are a rapidly growing technology company, helping our utility partners around the world lead the energy transition by enabling enhanced grid flexibility, resilience and security. At LineVision, we provide electric utilities with our patented non-contact sensors to provide the real-time monitoring and predictive analytics needed to secure the future of the grid.

We are looking for a **Chief Technology Officer** to play a pivotal role in our organization to help drive technology development that will shape the future of our business.

### What will you do?

You will have primary responsibility for shaping and executing LineVision's technology development. Specifically, you will:

- Build and manage a high-performing technology team, ensuring proper alignment of the technology functions and providing ongoing mentorship and development opportunities for team members
- Develop LineVision's technology vision and roadmap, informed by input from team members, customer needs and industry developments
- Define the technology stack and align efforts of software, hardware, data science/AI, R&D and IT development teams
- As a member of the C-Suite, represent the technical team in business planning, resource allocation and strategy discussions
- Provide thought leadership in the industry and serve as LineVision's technology ambassador for strategic customers, prospects and partners
- Identify and participate in implementing appropriate intellectual property protective measures

### What do you need to succeed in this role?

- Experience successfully leading high-performing technical teams
- Be an assertive team player with a passion for growth, excellent interpersonal skills, quick start energy, and experience scaling growth stage companies
- Ability to clearly communicate priorities and utilize agile methodology to execute LineVision's development roadmap
- Consistently apply rigorous attention to detail, work ethic, professional integrity, and organizational skills
- Successfully develop team members and create a hiring pipeline to meet the company's growth and succession planning needs

## What does joining LineVision mean for you?

- **Impact.** Your talent, time, and energy will critically impact the company's success in providing utilities around the world with solutions to increase the flexibility, efficiency and safety of their grids for a cleaner and electrified future
- **Growth.** You will build a high-performing team to maintain LineVision's technical leadership in the \$12B global market for line monitoring and dynamic line ratings..
- **Distinction.** You will be a thought leader in the industry, developing platforms and solutions that help utilities transform their grids for a clean energy transition.
- **Ownership.** You hold broad responsibilities with high autonomy in a communicative, collaborative, and fast-paced environment
- **Compensation.** You are vested in a high-potential success story, with competitive compensation, benefits, and comprehensive PTO and leave policies, complemented by stock options in a high-growth company with world-class venture capital backing

## Who we are...

- We are a team of dedicated individuals who are passionate about helping to solve the biggest challenges facing today's electric grid
- We believe unlocking transmission capacity is critical to the resilience of our future grid and the ability to integrate renewables at scale
- We value and benefit from the wide-ranging perspectives that come from a diverse and inclusive work environment
- *We are committed to providing:*
  - Situational awareness to help grid operators make informed decisions on the physical position of their conductors that can help to prevent damage and fires
  - Dynamic Line Ratings to increase capacity by up to 40% on existing transmission lines with real-time monitoring while improving reliability & safety
  - Asset health monitoring to improve maintenance strategies by creating a digital twin to determine the true conductor health
